- German engineered**
- Aluminium mast system compatible with GEDA MH 660 Boiler Hoist**

GEDA MH 660

Whether scaffolding elements, tools or other construction materials: The GEDA MH 660 is the compact and robust partner for efficient material transport at construction sites. The lightweight aluminium mast elements can be assembled by one person.

The convenient loading and unloading ramp ensures comfortable access to the platform, which is approved for transporting up to 660 lbs. Once at the landing level, the car of the GEDA MH 660, which can be swivelled by 90 degrees, allows a safe transition and comfortable loading and unloading.
